22 June 2006

## **DECLARATION OF RECOGNITION OF CONTROL UNION CERTIFICATIONS AS EQUIVALENT CERTIFICATION BODY**

On behalf of Australian Certified Organic I hereby declare that Australian Certified Organic signed an agreement with Control Union Certification which recognises Control Union Certifications as equivalent Certifying Body for certification of organic production.

The Contract was signed on the 20<sup>th</sup> June 2006 and is subject to revision every two years.

The decision to recognise Control Union Certification as equivalent Certification Body was based on the assessment, which took into consideration the fact that Control Union Certification is ISO 65 Accredited Certification Body accredited to the scope of European Regulations EEC 2091/92. Further, the EU Regulations were compared with the Australian Organic Standard and were found comparable.

The scope of the agreement is limited to:

- Unprocessed agricultural crop products and livestock products (excluding Grower Groups)
- Livestock
- Processed agricultural crop products and livestock products

The agreement is subject to review should any major changes to legislation occur.

Micheal Blakeney
